Information Regarding Disclosure of Your Social Security Number Under Public Law 93-579, Section 7 (b)

-Disclosure by you of your Social Security Number (SSN) is mandatory to obtain the training you are seeking. Solicitation of the SSN by the United States Civil Service Commission is authorized under provisions of the Executive Order 8397, dated November 22, 1943. The SSN is used as an identifier to match the person completing the training with the correct master record in the Central Personnel Data File (CPDF). It will be used primarily to give you the recognition for completing the training and to accumulate government-wide training statistical information. The information gathered through the use of the number will be used only as necessary in training administration processes carried out in accordance with established regulations. The SSN also will be used for the selection of persons to be included in statistical studies of training management matters. The use of the SSN is made necessary because of the large number of present Federal employees who have identical names and birth dates, and whose identities can only be distinguished by the SSN.
